

Advent Services LLC

Cybersecurity Assured - Trust Restored!

CAPABILITIES STATEMENT

A leader in supporting clients in technically demanding industries, Advent's cybersecurity services promote innovation & empower our clients to manage risk, protect information and achieve corporate information security objectives.

Our Values: Fearless Execution, Results-Driven Agility

NMSDC
National Minority Supplier
Development Council

NVBC CERTIFIED
SERVICE DISABLED
VETERAN OWNED BUSINESS

A Trusted Technology Partner with a Shared Vision of a More Secure Vendor Ecosystem

The supply chain, the at-most risk element and easiest attack vector, must be protected. We do this by:

- Identifying and prioritizing risks, threats and vulnerabilities in the organization's supply chain.
- Performing research to support our client's ability to conduct effective due diligence on suppliers and their offerings
- Evaluating the cybersecurity posture of new and potential suppliers before they join the ecosystem.
- Inspecting current suppliers to ensure they maintain an efficient cybersecurity program.
- Prioritizing remediation of vendors already in the supply chain.
- Helping suppliers attain and maintain the required cybersecurity compliance.

Differentiators

Proven Performance

- Experience supporting customers in technically demanding industries like **education, healthcare** and the **military**.
- Executed projects across geographical areas, including outside the continental US from our **facility in Latin America (PR)**.

Professional Management

- Lean Corporate Management style provides **reduced risk & increased responsiveness**.
- Our management approach involves the commitment of the entire company resources for **flexibility** and to minimize disruption of service.

Talented People

- Highly trained & experienced workforce with **diverse professional backgrounds**
- **Experience and training** from organizations like the **National Security Agency** and the US Navy

Financial Stability

- **Debt-free** company
- Already-established funding sources to **rapidly scale**

Security Vetted

- US Government approved **Facility Security Clearance**.
- **Compliant** with Department of Defense and **Cybersecurity & Infrastructure Security Agency** requirements.

Competencies

Engineering

- Agile Software Development
- Secure Web Development
- DevSecOps Methodology
- Cloud & SaaS Architecture
- Systems Integration

Support

- Cyber as a Service
- IT Systems Administration
- Network Engineering
- Help Desk and Technical Support
- Technical Consulting
- Data Management
- Continuous Monitoring
- Anti-phishing Training

Risk Management

- Supply Chain Risk Management
- Risk Management & Compliance
- Security Controls Implementation
- System Security Plan Development
- Security Audits
- Plans, Policies & Procedures
- Vulnerability Assessments
- Penetration Testing

Past Performance

Jellyfish Health LLC

Cybersecurity Services

- SOC 2 Security Pre-Assessment
- HIPAA Compliance Audit
- Cybersecurity Risk Management Consulting
- Cybersecurity Engineering for AWS

Recursav LLC

SaaS & Cloud Architecture Consulting

- Software Requirements Definition
- AWS EC2 Cloud Architecture
- Software Engineering
- Project Management

My Life Chronicle LLC

Cloud Systems Engineering

- AWS EC2 Cloud Architecture
- Web Development
- Project Management

Embry-Riddle University at Tyndall AFB, FL

Network Services

- Network Engineering
- Wireless Network Deployment
- Technical Support

Gulf Coast State College

Data Management Services

- Database Development
- Data Transformation
- Software Development

US Navy

Engineering Support

- Cybersecurity
- Software Engineering
- IT Support

US Forest Service

Record Management Services

- Document Digitization
- Database Development

US Department of Veterans Affairs

Network Services

- Network Engineering
- Technical Support
- Infrastructure Support
